

PROFESSIONAL SUMMARY

Software developer with 3+ years of professional experience in designing highly scalable distributed systems for enterprise-scale environments. Highly passionate about solving complex technical problems using modern simple solutions. Strong background in Java, Spring Boot, C#, ASP.NET, TypeScript, Angular, React, AWS, and Docker.

PROFESSIONAL EXPERIENCE

Full-stack Software Developer

Farm Credit Canada | Aug 2024 – Present

- Maintained business critical software through troubleshooting, optimizing legacy code, and performing complete code rewrites to improve performance and functionality.
- Designed and deployed responsive web applications using TypeScript and Angular, integrated with Java-based microservices.
- Spearheaded the design and implementation of a critical B2B microservice in Java and Spring Boot, enabling secure and reliable data exposure to external partners.

Junior Software Developer – Co-op / Internship

O2G Ventures | Sep 2023 – Apr 2024

- Developed cognitive assessment tools for elderly patients in TypeScript and React. Adhered to Web Content Accessibility Guidelines to ensure an inclusive and intuitive experience for users with diverse needs.
- Expanded features and optimized an enterprise ASP.NET monolith, leveraging CQRS patterns to ensure clean separation of concerns and improve system maintainability.
- Integrated AI capabilities by developing agents in Python utilizing a Large Language Model to evaluate and calculate metrics for cognitive assessment tools.

EDUCATION

B.Sc. Computer Information Systems

Athabasca University | 2024 – 2026

Diploma in Computer Systems Technology

Saskatchewan Polytechnic | 2022 – 2024

TECHNICAL SKILLS

Programming Languages: Java, C#, TypeScript, JavaScript, Python

Frameworks: Spring Boot, ASP.NET, Angular, React

DevOps: AWS, Docker, Jenkins CI/CD
