

PROFESSIONAL SUMMARY

Software developer with 3+ years of professional experience in designing highly scalable distributed systems for enterprise-scale environments. Highly passionate about solving complex technical problems using modern simple solutions. Strong background in Java, Spring Boot, C#, ASP.NET, TypeScript, Python, Angular, React, AWS, and Docker.

PROFESSIONAL EXPERIENCE

Full-stack Software Developer

Farm Credit Canada | Aug 2024 – Present

- Spearheaded the design and implementation of a critical B2B microservice in Java and Spring Boot, enabling secure and reliable data exposure to external partners while processing over 10k weekly requests.
- Maintained business critical microservices through troubleshooting, optimizing legacy Java Spring Boot code, and performing complete code rewrites to improve performance and functionality.
- Refactored web applications written in TypeScript and Angular, improving overall system performance by reducing microservice API requests by 50%

Junior Software Developer – Co-op / Internship

O2G Ventures | Sep 2023 – Jun 2024

- Developed Python-based AI agents using LangChain and OpenAI to automate cognitive metric calculations, reducing diagnostic evaluation time for medical staff.
- Designed and implemented cognitive assessment tools for elderly patients in TypeScript and React, following strict Web Content Accessibility Guidelines to ensure an inclusive and intuitive experience for users with diverse needs.
- Expanded features and refactored an enterprise ASP.NET monolith, leveraging CQRS patterns to ensure clean separation of concerns and improve system maintainability.

EDUCATION

B.Sc. Computer Information Systems

Athabasca University | 2024 – 2026

Diploma in Computer Systems Technology

Saskatchewan Polytechnic | 2022 – 2024

TECHNICAL SKILLS

Programming Languages: Java, C#, TypeScript, JavaScript, Python

Frameworks: Spring Boot, ASP.NET, Angular, React, LangChain

DevOps: AWS, Docker, Jenkins CI/CD
